***Response to Amendment***

1. Amendment filed on August 12, 2004 has been entered. Claims 2, 7, 9, 11 and 12 have been cancelled. Claims 1, 3-6, 8, 10, 13, 14 are pending in the application.

***Oath/Declaration***

2. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

3. Applicant is now required to submit a substitute declaration or oath to correct the deficiencies set forth herein. The substitute oath or declaration must be filed within the THREE MONTH shortened statutory period set for reply in the "Notice of Allowability" (PTO-37). Extensions of time may NOT be obtained under the provisions of 37 CFR 1.136. Failure to timely file the substitute declaration (or oath) will result in **ABANDONMENT** of the application. The transmittal letter accompanying the declaration (or oath) should indicate the date of the "Notice of Allowance" (PTOL-85) and the application number in the upper right hand corner.

**EXAMINER'S AMENDMENT**

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Melvin Goldstein on September 28, 2004.

Rewrite claim 8 as follows:

A layered composite as claimed in claim 1, where the decorative layer comprises a material which has an embossment or coloration or combination of both, or paper or a fabric or a wood material.

***Allowable Subject Matter***

5. Claims 1, 3-6, 8, 10, 13, 14 are allowed.

The following is an examiner's statement of reasons for allowance: Claim 1 is allowed because the prior art of the record does not teach or suggest a layered composite having decorative layer and a heat-cured layer on both sides of a backing layer. Closest prior art of Johnson and Ellison et al teach a layered composite having decorative layer and a heat-cured layer on one side of a backing layer, and there is no motivation to remedy the composite of Johnson and Ellison et al by Klapper et al.

Claims 3-6, 8, 10, 13, 14 are allowed as further limiting allowed claim 1.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
